

AUSTRALIAN DUST & FUME CONTROL

Quality, Health, Safety & Environmental (QHSE) Policy Statement

Document ID: ADFC-QHSE-POL-2026 | Version: 3.2 | Certified: ISO 9001 & ISO 14001 Aligned

1. CORPORATE COMMITMENT & QUALITY OBJECTIVES

Australian Dust & Fume Control Pty Ltd is committed to designing, manufacturing, and installing turnkey dust collection, fume extraction, and air pollution control systems of the highest quality. Our manufacturing processes in Wetherill Park, NSW adhere to rigorous Australian Standards.

2. ENVIRONMENTAL STEWARDSHIP & EMISSIONS REDUCTION

We engineer advanced industrial filtration equipment capturing up to 99.9% of hazardous particulates and neutralizing toxic chemical vapors, preventing atmospheric pollution and protecting local communities.

3. WORKPLACE HEALTH & SAFETY COMPLIANCE

ADFC operates under certified Safety Management Plans (SMP) ensuring zero-harm site execution. All combustible dust systems are engineered in strict compliance with AS/NZS 4745:2012 explosion venting.

4. CONTINUOUS IMPROVEMENT & CLIENT SATISFACTION

Through regular internal audits, performance testing, and client feedback, ADFC continually refines its engineering methodologies, offering 24/7 technical support and nationwide maintenance servicing.
